

# Itinerary from Chania airport to Kapsaliana

## 1 - Departure

To leave the airport, go straight when exiting the parking lot.

Airport exit, go straight

First sign direction Rethymnon, turn left

- The road is very good overall, but traffic may be surprising to westerners - don't go too fast (70/80 kph, or 45-50 mph max are ok) and pay attention: there are some very slow vehicles, a few that go very fast, and some very fragile objects such as the occasional stray animal or moped-riding tourist...
- Going over to the emergency lane to let faster vehicles pass is standard practice: Everyone does it, and it makes overtaking much easier and safer than it would normally be.
- If you need to refill there's a petrol station **2,5-3 km** after departure, on the right side.

At this junction, turn left direction Souda

At the traffic lights, turn right direction Heraklion
