

# Itinerary from Heraklion airport to Kapsaliana

## 1 - Departure

To leave the airport, turn right when exiting the parking lot, then right again at the light. You will take the direction of **Rethymno** by the highway, the access ramp is on your right.

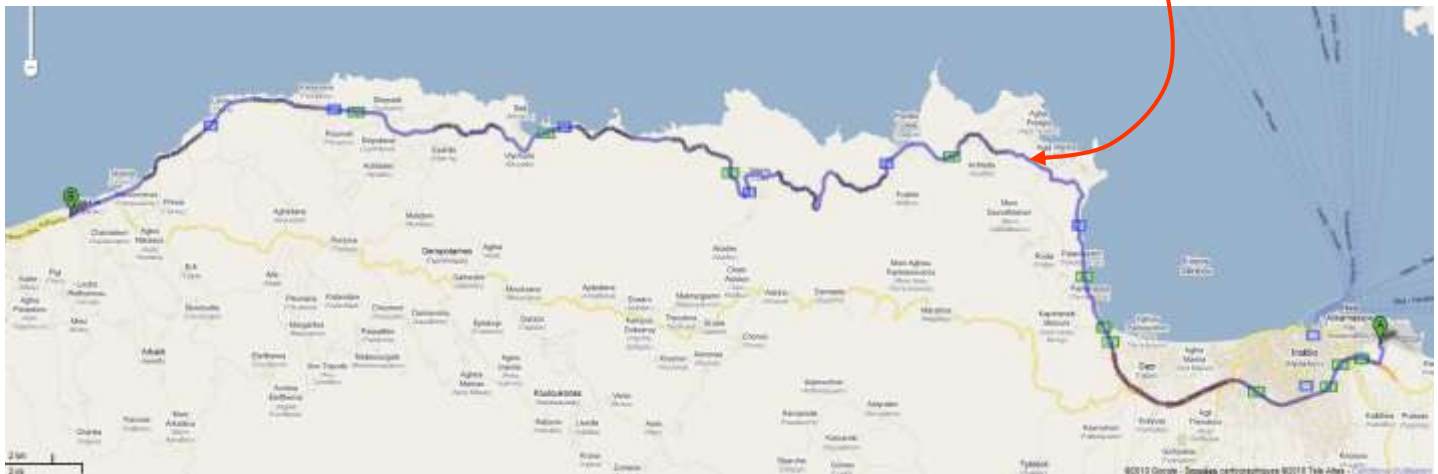

First sign, of not much use

This is the sign showing the right way. Follow the black car!

- The road is very good overall, but traffic may be surprising to westerners - don't go too fast (70/80 kph, or 45-50 mph max are ok) and pay attention: there are some very slow vehicles, a few that go very fast, and some very fragile objects such as the occasional stray animal or moped-riding tourist...
- Going over to the emergency lane to let faster vehicles pass is standard practice: Everyone does it, and it makes overtaking much easier and safer than it would normally be.
- If you need to refill there's a BP station **23 km** after departure, on the right side.

There are exactly **72,2 km** from the airport to where you will exit the highway, in **SFAKAKI**. Starting roughly 1,5 km before this exit, these are the successive signs that you'll see:

First sign indicating the exit, in Greek

2<sup>nd</sup> Part

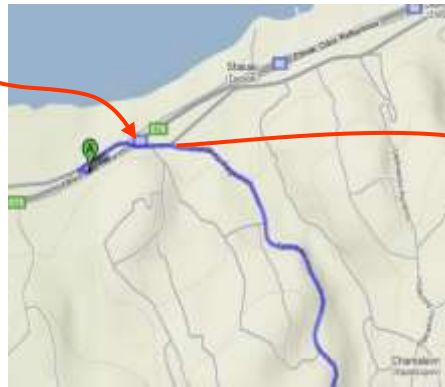

Second sign in latin characters,  
400 m before the exit  
The exit name is « Rethymno Old Road »

...and the exit itself

**WARNING!** You will need to slow down a lot and immediately make a U-turn to the right, to take the parallel road in the opposite direction.

Driving in the opposite direction on the parallel road, you will go under this bridge

Roughly 500 m after the bridge, take the first road to your right in the direction of « Arsani Monastery ».

Continue on this road for 3,4 km, until you reach this crossroads where you will go right ...  
(note that Kapsaliana is now indicated)

...and after just 50 m, turn left on the main road.
